DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE		
<p>According to the present owners, the first part of "Batchelor's Choice" was built in about 1700 by Henry Hall. Hall's descendants lived in the house for 200 years, and some of them still live nearby. The Digges acquired the house about 8 years ago and they have undertaken a careful restoration of it.</p> <p>Two additions were made to the house, ca. 1810 and 1840. The kitchen has been rebuilt several times on different sites. The entire house is frame but each section of it exhibits a different style and feeling.</p> <p>Part I (ca. 1700) has a three bay front. It is one room deep and 2 1/2 stories high. The plan has a hall and stair beside a single large room. An exterior chimney serves the north end of this room.</p> <p>A wide entrance porch on the front of this section has four square columns under a pediment. The motif is repeated on the dormers. These details are 19th century additions. The dormers have 6 over 3 pane window openings. The second floor has 6 over 6. The exterior frames have carefully detailed, raised moldings.</p> <p>The interior of Part I has relatively low ceilings (under 9 feet). The stair has a poplar bannister and newel post which were stained to look like cherry and walnut. The main room has a narrow, delicate, chair-rail. The mantel (similar to two at "Gowry Banks", AA-47-Q-a) has an intricate though rather primitive design made from an applique of tiny pieces of wood.</p> <p>Part II (ca. 1810) adjoins the south end of the first house and is served by the same stair. This section has 2 stories under a less steeply pitched roof. The ceilings are taller (about 11 feet) and the windows larger. The plan is one room; a parlor, with a chamber above. The chimney is on the south end. The parlor has a panelled wainscot and wide door and window moldings with a corner-square motif.</p> <p>Part III (1840) contains the dining room with a chamber above. The moldings in this section are very plain. The kitchen is reached through an enclosed porch.</p> <p>The exterior of the house is sheathed in horizontal wood-siding. The structure has been strengthened and repaired. Even so, there remains a visible sag in the oldest section. The plaster was replaced over much of the house. The floors and virtually all of the woodwork are original. The paint has been removed, layer by layer, and the original color duplicated.</p> <p>The house is surrounded by several very large holly trees. It is not visible from Route 2 as it is at the end of a lane between woods and fields.</p>
